1. The drawings were received on 1/12/06. These drawings are acceptable.
2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 13-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. A careful review of the original disclosure does not appear to show any support for the combination of the straps or ties of claims 13-17 and the zipper of claim 19 now a part of claim 1 as amended. These appear to be presented and previously claimed as alternate constructions.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 18 and thus 2 and 4-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant is advised that the use of the expression a "second" corresponding second half of a perimeter zipper in absence of a first corresponding second half is confusing. It is suggested that applicant amend claim 1 at lines 20 and 23 by changing "second: corresponding second zipper half to first corresponding second zipper half.

Applicant is further advised that the claim in claim 18 for "a first half of a perimeter zipper" which is attached to a portion of said top appears to be a double inclusion of that set forth on lines 18 and 19 of claim 1 as it is now amended. Furthermore with the suggested changes to claim 1 it is further suggested that applicant change a "first" corresponding second half of a perimeter zipper to a second corresponding second half of a perimeter zipper on lines 3 and 6 of claim 18.

4. Applicant's arguments, see pages 15-17 of the amendment, filed 1/12/06, with respect to the objections to the drawings have been fully considered and are persuasive. The objections of drawings have been withdrawn.

For applicant's information it is 37 CFR 1.84 (h)(5) which requires that modified forms of construction must be shown in separate views. A recitation of the rule may be found in section 608.02 of the MPEP.

5. Claims 1, 2, 4-12 and 18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 3, 19 and 20 have been canceled

6. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a).
